

Waves, Wetlands, and Watersheds

FREE WORKSHOP for EDUCATORS

Saturday, April 28, 9am-1pm

San Francisco Bay Model
2100 Bridgeway, Sausalito

Workshop attendees will receive a FREE copy of the California Coastal Commission's science activity guide for teachers, *Waves, Wetlands, and Watersheds*. Learn how to integrate thought-provoking environmental education activities into your classroom and community while having fun. This workshop will include an interpreted wetlands/watershed tour of the Bay Model with US Army Corps of Engineers Park Ranger Linda Holm. Morning snacks and coffee will be provided.

Space is limited. **Please register before April 24** with Annie Kohut Frankel at afrankel@coastal.ca.gov, (415) 597-5888, or (800) Coast4U. Include the spelling of your name, email, phone number, grade(s) taught and your school or organization as applicable. This workshop is open to both formal and informal educators.

Professional growth credit offered through the University of the Pacific (when additional work is performed). Details available upon request.

Waves, Wetlands, and Watersheds is a classroom activity guide for teachers that addresses California's coastal and marine issues such as endangered species, marine debris, coastal geology, water use, and more. It is carefully aligned to the California State Science Content Standards for grades 3 through 8, and includes Community Action lessons adaptable for all ages up to and beyond grade 12. The connection between inland areas and the ocean is emphasized throughout, so the lessons are relevant for students living in all regions of California. You will also be introduced to additional free environmental educational resources available through the CCC.
